REASONS FOR ALLOWANCE

1. The declaration filed on 29 July 2004 under 37 C.F.R. § 1.131 is sufficient to overcome the Hel-Or reference.

2. Applicant's arguments, see page 6 of applicant's response, filed 29 April 2004, with respect to Hel-Or have been fully considered and are persuasive. The rejections of claims 1-3, 15-17 and 200 have been withdrawn.

3. The following is an examiner's statement of reasons for allowance: None of the prior art teaches or suggests the claimed invention. Specifically, while Baharav et al. teaches the use of two or more halftone modulations to embed information into an image, Baharav et al. fails to specifically teach that the information can be detected by applying a respective filter for each such halftone modulation, as required by each of the independent claims. Therefore, the claimed invention is allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Claims 1-31 are allowed.
